

BUYING HELPS STOCK PRICES

Active Market and Strong
Quotations Feature Day
on Wall Street

NEW YORK, May 25.—There was some strength in the stock market this morning, but the undercurrent denoted a continuance of bearish sentiment among professional traders. Oils were the only noteworthy exception, Mexican Petroleum rising 1 1/2 points with a more moderate gain for Pan-American. Buying of low-priced rails attributed to western interests, effected an advance of 1 point for Rock Island. United States Steel made a fractional gain, but most of the seasonal industrial and rails were little changed. Atlantic Gulf, yesterday's strongest feature, forfeited a point at the outset.

The market became active and strong before the end of the first hour, oils leading the movement on further buying of the Mexican issues. Motors and equipments followed the steels and shippings, advances running from 1 to 3 points. There were substantial recoveries also in sugars, textiles, leathers, tobaccos and chemicals (sugar gains of 1 to 5 points). Rails became more prominent on buying of Reading and Southern Pacific. The only stocks to lag were copper and other metal issues. Call money was again freely supplied at six per cent, but exchange on London yielded part of yesterday's advance.

Most gains were irregularly increased during the intermediate session, although business fell away to a marked extent. News from Mexico prompted further covering by the shorts in oils and buying of rails, included many of the speculative low-priced shares.

CHICAGO MARKET.

CHICAGO, May 25.—Commission house buying which found offerings meager brought about decided upturns today in the value of corn. Scarciness of stocks of corn here tended to make sellers cautious, owing to the fact that contracts for May delivery must be closed not later than Sunday. More over, buyers appeared to be inclined to go slow until arrivals of corn here totaled a good deal larger than at present. Opening prices, which varied from unchanged figures to 2 1/2c higher, with July 1-1/2c to \$1.62 1/2c, and September, \$1.55 1/2c to \$1.55 1/2c, were followed by material gains all around.

Oats ascended with corn. After opening 3 1/4c to 7 1/2c up, including July at 88 1/4c to 88 5/8c, the market continued to climb.

Provisions were a little firmer in response to grain strength. Trade, however, was slow.

1920 BUSINESS GIRL IS SPOILED DECLARES WOMAN JOB EXPERT

"NOTHING UNDER \$120 A MONTH, THANK YOU."

By MABEL ABBOTT, N. E. A. Staff Correspondent.

Every woman has two sides. Here's the other side of the story of women in business, as seen by Mrs. W. E. Cramer of Kansas City, head of an employment agency which has placed hundreds of women in business and professional positions both during and since the war.

"Speaking generally, and with the understanding that there are exceptions," she says "the present attitude of women and girls toward work is alarming."

Think Only of Salary
The first thing the average woman specifies when she comes to me for work, is the size of the salary she will accept.

"A woman wanted me to find her a position as automobile saleswoman. She had been a school teacher and didn't know a clutch from an axle."

The itinerant typist is a species well known in employment offices nowadays. She goes from job to job and from city to city, always able to get salary larger than she earns, because of the shortage of help.

Wouldn't Stay Home
Then there are the women who get a taste of the bustle and interest of downtown work when they spend their time in volunteer war activities. When the armistice was signed, they stayed home about two months, and then rushed into anything that would take them away from home again.

"A woman with three children whose husband makes all the money they need, came to me the other day. 'I'm through housekeeping,' she said. 'I'll supervise it if necessary, but I'll never do it myself again.'"
